Subject: Allocation of Transport s106 Contributions

Hello All,

Please see below details of the proposed allocations of developers' contributions relevant for your particular parish. These have been agreed in principle with colleagues at HCC and a formal Portfolio Holder decision regarding the allocations will be made following this consultation.

The contributions have been received, via Section 106 agreements, in order to mitigate the transport impacts of the approved developments. In order to satisfy the conditions in the Government Circular 05/2005 the contributions have to be used on schemes that relate to the contributing site. The schemes suggested for allocation are included in the Transport Contributions Policy (TCP) list of schemes jointly agreed by HCC and NFDC – further details regarding the list is available on the NFDC website: <http://www.newforest.gov.uk/index.cfm?articleid=10669>.

If you have any comments on the proposed allocations in your parish please forward them to me by **22nd June 2012**.

EASTERN AREA: TOTTON AND WATERSIDE						
Location	Proposal	Cost Estimate	Sums Already Allocated	Suggested Further Allocation	Contribution Allocated For:	Planning Application No
