Melanie

Unfortunately the answer is no in that we have no database that contains such information. In fact we have to search individual permissions when any such issues are raised.

This is one of the reasons we suggest individuals proposing development that maybe PD submit a formal Certificate of Lawfulness of Proposed Development application.

Let me know if I can help further.

Yours sincerely

Subject: PD rights

Afternoon David

At a Parish Council Planning Committee meeting recently my Members got a bit confused about some properties having their PD rights removed when they were built or later due to development on the site.

Members expressed concern that many residents might not know that this affects their property and with the change in the PD rights that came into effect in June this information may become more important.

Is it possible for District to supply us with a list of roads or properties that have had their PD rights taken away?

Thank you for your assistance in this matter.

Regards

Melanie Wathen
