**Subject:** speeding

Hi Melanie

To confirm, I will be on holiday during week commencing 15th July and will not be able to attend any meeting that week.

I have received a complaint about vehicles speeding through the village from the railway crossing in the direction of Normandy Way. The example given occurred at about 7.25 this morning, I have followed cars in the opposite direction which have not reduced speed at the re-sited 30 mph sign on Normandy Way/Oaklands Drive. A suggestion was made that speed humps on that stretch of road, to include the junction with Main Road, would protect children crossing for the School and other pedestrians. Can this subject be added to the agenda for the next Council meeting, I have copied this to the police.

Kind regards  
Brian
