

Broadband at the Youth Club

Broadband has been connected to the pavilion on the Parish Council BT phone line.

The broadband was connected at the request of the Youth Club as the young people like to be able to access the internet.

However, when the first bill was received by the Parish Council the Youth Club asked if we would pay half of it as the Handy Trust Youth Worker will be using it in her work with the young people of Marchwood.

The Handy Trust Youth Worker Hayley will have an office in the pavilion (the old kitchen) and will be there to assist the youth with job applications and other services. Hayley has gained funding to purchase her own computer and printer and it would therefore seem reasonable to pay half of the bill for Hayley's use.
