

Request to New Forest District Council for the release of £50,000 from S106 monies for the Youth build

This report is to inform Members that the Clerk has written to Jamie Burton at NFDC to request the release of £50,000 from S106 monies for the Youth Build.

The current build is going over the original grant monies of £85,000 available due to unforeseen extras such as disabled ramps, security lighting, CCTV, a new flue for the boiler and flooring.

The extra works are due to cost about £25,000 - £30,000 but it was decided to ask for the £50,000 encase anything extra came up and it would save time and the paperwork involved for Officers and Members at NFDC.

Any money left out of the £50,000 would be returned to NFDC to go back into the Marchwood Community Facilities S106 budget for future use.
