

Community Speed Watch

At the Planning Committee meeting held on the 11th June 2012 it was resolved to write an article for the Village News magazine asking residents if they would be interested in the above scheme and if they would like to volunteer to assist with it.

The article was included in the Autumn issue which was delivered in mid-August to early September.

To date only five residents have contact the Parish office saying they would be interested in volunteering for the scheme. All of these residents live on the village side of the A326.

All of the surrounding Parishes have been contacted to ask if they would like to join the scheme and share the costs of purchasing the equipment (£2500 - £3000) but we have only had responses from Totton & Eling and Hythe & Dibden saying they are not considering this scheme at the present time.

Do you wish to proceed with the Speed Watch scheme?
