

## **New Forest Accredited Community Safety Officer's (ACSO's) Weekly Community Bulletin**

**11th of October 2013**

### **Driving offences in a five-day police operation to crackdown on distraction driving**

Today we are releasing video footage of just a small selection of the 227 driving offences detected during Operation Tramline, a five-day police operation run by officers from the Roads Policing Unit across the motorways of Hampshire and the Thames Valley.

A lorry driver brushing his teeth - toothbrush in one hand and water bottle in the other - is one of the examples highlighted, together with video of a woman applying her make-up, checking her face in the rear-view mirror whilst driving on the M27.

[Click here to watch the footage on YouTube](#)

Operation Tramline resulted in a total of 198 motorists being prosecuted for driving offences, most of them driving whilst distracted. The operation ran from September 23 – 27, focussing on the M27, M3, A34, M4 and M40. The video was filmed by officers from Hampshire Constabulary's Roads Policing Unit from a Scania HGV cab, hired specifically to give them an elevated vantage point to spot distracted driving offences.

The faces of the offending motorists have been obscured to prevent them being identified, because each still has the right to contest the prosecution.

**'Incredibly dangerous'**

Sergeant Paul Diamond, who co-ordinated the successful operation, said: "Distracted driving is proven to be a significant factor in many of the collisions on our roads. The vast majority were holding phones in their lap and accessing applications or texting with their hands held low. This is incredibly dangerous both for the motorist and for other road users.

"Driving distracted is one of the 'fatal four' causes of road deaths and collisions in Hampshire and the Isle of Wight. Through innovative use of equipment and technology available to us, we will continue to crack down on this and will repeat Operation Tramline again in the future."

In total 198 individual vehicles were identified committing offences, with some vehicles evidencing a number of offences bringing the total to 227.

Other behaviour by motorists spotted by the Tramline team included:

- Two van drivers reading newspapers while they drove
- One person reading a map on the steering wheel
- Two drivers using iPads (one on the steering wheel) while they drove
- One driver using a laptop
- One van driver seen accessing Facebook on her mobile phone while driving on the M27
- 126 motorists were using their mobile phones
- 25 were people distracted by other means
- A total of 25 lorry drivers were evidenced using their phones with another six being distracted by other means.

Other vehicles stopped because the driver was using a mobile phone included:

- 2 agricultural tractors
- 1 taxi
- 38 light goods vehicles (vans)
- 1 recovery truck

All drivers were issued with notices that will result in a £100 fine and three points on their licence. Some will be able to negate the points if they elect to attend a driver awareness course.

On top of the distraction operation, officers highlighted and dealt with the following general offences during the week long patrol:

- Eight people not wearing a seatbelt
- Ten for careless driving or inconsiderate driving offences
- Eight speeding offences
- Six vehicles with no MOT
- Three vehicles with no insurance
- Five fail to stop at a red traffic light
- One registration plate not conforming to the regulations
- 15 excessive drivers' hours offences
- Three driving without insurance
- Six vehicles driving on a verge or other unauthorised part of the motorway
- One tyre defect
- Three lighting defects
- Two driving otherwise than in accordance with a licence
- Three vehicles were prohibited

# COUNTRY WATCH

**Western Weekly:**

**10<sup>th</sup> October 2013**

Colleagues,

This week we have had numerous reports of property being stolen from motor vehicles. In some of the areas targeted people did not lock their vehicles. Please ensure that you lock your vehicle whenever it is unattended, even if you are only leaving it for a short period of time.

The list below under 'Rural Theft' is the longest it has been for some time. A lot of these thefts have occurred from sheds and garages in rural gardens. As the darker evenings begin to sneak upon us please take a few moments to check the security of your outbuildings. Ensure that good quality padlocks, hasps and hinges are used. Consider installing a security light or a basic alarm. The Country Watch team are able to conduct site visits where we can provide security advice to reduce the risk of you becoming a victim of crime. Please don't think it will never happen to you. That's probably what a lot of the people on the lists below thought.....

Louise.  
PS 483 Hubble.

### **Theft From Motor Vehicle**

- 02/10. Romsey. An Echo HCS260ES Hedge cutter was stolen from an insecure vehicle.
- 02/10. Awbridge. A Stihl MS170 chainsaw stolen from an insecure vehicle.
