

Have your say on proposed Waterside travel improvements

There are ambitious plans for the Waterside area, to support economic growth and provide much needed homes, while enhancing the unique location between the New Forest and Southampton Water.

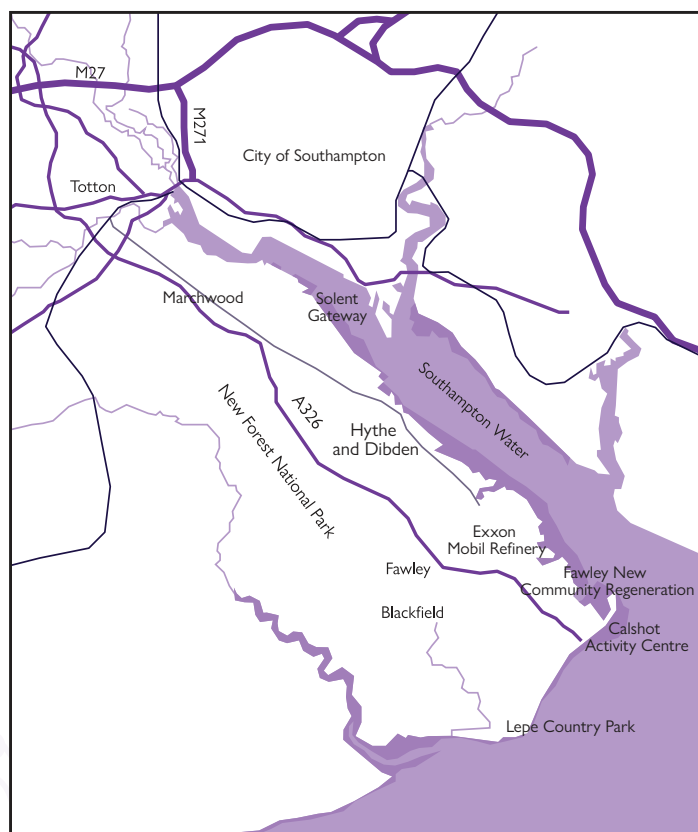

Hampshire County Council has developed a transport strategy for Waterside communities from Totton to Lepe.

We want to hear your views on:

- The vision, priorities and themes in the **transport strategy**;
- Improvements to a northern section of the **A326** to reduce congestion and improve journey reliability;
- Investment to improve facilities for **cycling, walking and buses**;
- Re-introducing a **passenger rail service**.

Find out more and have your say by **Sunday 29 August** at hants.gov.uk/watersidestrategy

Or request a paper copy by calling **0300 555 1388***

*0300 calls are usually included in most landline and mobile call packages and if not, are charged at no more than calls to normal home or business landlines.
